

following stars is
the easiest way to
hold a course, just
hope a cloud doesn't
get in your way!

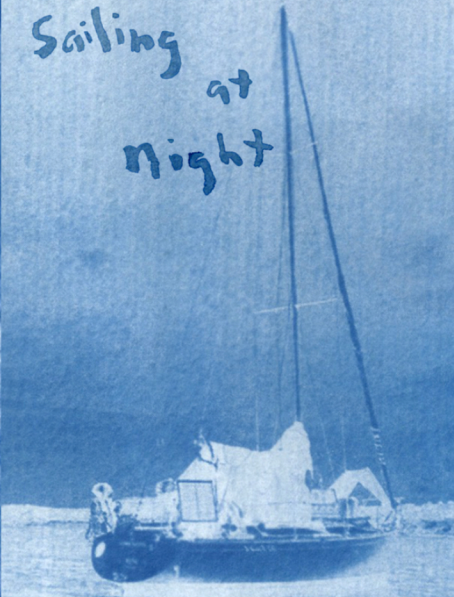

Attracted by our stern light flying
fish jumped at our boat with
excitement.
Sometimes they joined
us onboard.

Sometimes we
have to in order to
sleep

We slept in 3 hour shifts

In October 2020 I embarked on a
1000nm journey at sea. This was
my first big crossing. It was
also my first experience sailing
the ocean at night.

Sailing
at
night

Tabor Shiles

boats without lights
passed us by.

seen only by their silhouette
against an island's light

Bioluminescence appear
as the boat cuts through
the waves.
